

How to Make Sam the Snake

Materials:

Sock (ladies' socks are a good size)
Eyes (googly eyes or paint)
Red felt (very little is needed)
Scissors
Glue (fabric glue is best)
Decorations, optional

Steps:

1. Cut the red felt into a forked tongue shape, leaving a long base for gluing to the sock.

2. Glue the eyes (or paint them) on the “top” of the sock near the toe end.

3. Turn the sock over and glue the tongue underneath the toe end of the sock.

4. Decorate with paint, thin ribbons, or other decorations, keeping in mind that the sock will need to stretch when put on the hand.
